LIFE GOT IN THE WAY

Woke up to the news that it's over
She said it wasn't me I didn't owe her
But Tonight I'll be tearing down the walls that keep me bound up inside
Tonight I'm determined to find the reason why

Cause I would give you everything do anything you want
Take you to the moon let you lay among the stars
I'll guess I'll never get that chance
What are you thinking baby do you know where you're at?
Once I'm gone there's no turning back

Took me by surprise it was something I didn't expect
I know we had our problems but no one's perfect
But tonight, I'll be staring at the phone it's just a matter of time.
Tonight, there's only silence to accompany my cries

Cause I would give you everything do anything you want
Take you to the moon let you lay among the stars
I'll guess I'll never get that chance
What are you thinking baby do you know where you're at?
Once I'm gone there's no turning back

Are you happy now?

Tonight

Are you happy now?

This is it let the credits roll

I have nothing more to give you

Cause I would give you everything do anything you want
Take you to the moon let you lay among the stars
I'll guess I'll never get that chance
What are you thinking baby do you know where you're at?
Once I'm gone there's no turning back

FOOLS RUSH IN

It's gonna be different now everything's gone
I was shut down but now I'm switched on
Can't believe all the grief that I held so deep down
inside for so long
Back in the saddle again back in the game
A little bit rusty but some things never change
New shoes Dutch courage and wink
Is all that I need to set me straight
But beware of the path you take

How will you feel in the morning?
How will know that this is real
How will you feel in the morning?
Take your time
Only fools rush in
Fools Rush In

My friend tells me I've got nothing left to lose
Can't help thinking I've got something to prove
He gets around all the town and I sound like a fool
because I tell him
I don't approve
That's not to say that I want to go to waste
A chance in a lifetime cannot be replaced
I don't know where to go even though I have
searched high and low
just to find that place
That we will come face to face my love

How will you feel in the morning?
How will know that this is real
How will you feel in the morning?
Take your time
Only fools rush in

All my life I've been waiting for the time
When it feels like I'm doing it right
All the planets and stars will align
And you'd be mine
But in the meantime

How will you feel in the morning?
How will know that this is real
How will you feel in the morning?
Take your time
Only fools rush in
Take your time
Only fools rush in
Take your time
Only fools rush in

SEARCHING FOR THE TRUTH

Soak it up

Take it in

Don't know where to begin

Is there some explanation I'm missing?

I see it I breathe it in

I just don't understand

How to find out who I am

And I've had enough

Searching for the truth in life

Am I too short for this ride?

Cause this don't feel right

Dreaming of the day I find

the answer to my questions

I know it's gonna take a while

Searching for the truth in life

Here I am

Here I stand

The shell of a broken man

Amongst so many souls without a plan

Please reveal what is real

Cause I don't know what I'm supposed to feel

In a world where the sick can't heal

And I've had enough

Searching for the truth in life

Am I too short for this ride?

Cause this don't feel right

Dreaming of the day I find

the answer to my questions

I know it's gonna take a while

Searching for the truth in life

I won't compromise

Searching for the truth in life

Searching for the truth in life

Am I too short for this ride?

Cause this don't feel right

Dreaming of the day I find

the answer to my questions

I know it's gonna take a while

Searching for the truth in life

Am I too short for this ride?

Cause this don't feel right

Dreaming of the day I find

the answer to my questions

I know it's gonna take a while

Searching for the truth

Searching for the truth in life

Searching for the truth in life

LONG TERM VISION

Long time coming

Long time waiting

For the story to unfold

Long term vision

No decisions

Mind made up I'm ready to go

I don't want to be wasting time

I seem to throw it away

We could be on our death beds tomorrow

We could be leaving this world behind

Can you honestly say you've done it?

Live your life to the full with no regrets

Not yet

Life's confusing

You'll take some bruising

It's a game that I don't know the rules

Contradicting

Self conflicting

Tied myself in knots just to get though

So reach for the stars

If you fall short

Then at least you'd have got far

I don't want to be wasting time

I seem to throw it away

I don't want to fall behind

Lord, keep these fears at bay

We could be on our death beds tomorrow

We could be leaving this world behind

Can you honestly say you've done it?

Live your life to the full with no regrets

Not yet

Not yet

Not yet

We could be on our death beds tomorrow

We could be leaving this world behind

Can you honestly say you've done it?

Live your life to the full with no regrets

We could be on our death beds tomorrow

We could be leaving this world behind

Can you honestly say you've done it?

Live your life to the full with no regrets

Not yet

BETTER DAYS

I have the best intentions
I'm just misunderstood
I'm trying to see what's positive
I'm trying to find the good
But it's not that easy
The glass is half empty
It's the same old story
That's pouring out of me

I don't want to be this way
Can I break the chain?
Of living my whole life
Feeling so ashamed

Chorus

Waiting for the pieces to fall in place
Waiting for the sun to light the way
Is there hope for me will I ever change
Or am I just destined to be this way
Forever and a day
I'll just keep on waiting for better days

All the limitations

I put on my self
I keep myself restricted
I'm hiding on the shelf
I wish it was easy
I wish I could please me
Keep dreaming of the glory
Of what my life could be

I don't want to be this way
Can I break the chain?
Of living my whole life
Feeling so ashamed

Chorus

Waiting for the pieces to fall in place
Waiting for the sun to light the way
Is there hope for me will I ever change
Or am I just destined to be this way
Forever and a day
I'll just keep on waiting for better days

I've got no one to blame
Let's get my head in the game
Convince myself
I can do it
I can do anything

I don't want to be this way
Can I break the chain?
Of living my whole life
Feeling so ashamed

Chorus

Waiting for the pieces to fall in place
Waiting for the sun to light the way
Is there hope for me will I ever change
Or am I just destined to be this way
Forever and a day
I'll just keep on waiting for better days

DON'T LEAVE ME HANGING ON

She told me she's leaving
Unless I show her my feelings
So we sat down that evening
Lets find out
What this all means
I said I gave all I've got to give
I can't see what the problem is
She said that's not enough for me
you better step up
I'm on my knees
She Said

Ooh my love you are the one
but nothing is set in stone
nothing is set in stone
Ooh my love don't leave me hanging on

She said this is forever
Ain't nobody that's better
I want to wake up together
In our own house
and plant our seeds

Ooh my love you are the one
but nothing is set in stone
nothing is set in stone
Ooh my love don't leave me hanging

It's not gonna be as it used to be
I was wild and born to be free
There was no holding me down
I haven't seen what I'm supposed to see
my life has changed but it hasn't changed me
I won't be waiting in vein this time
I won't be hanging on

Ooh my love you are the one
but nothing is set in stone
nothing is set in stone
Ooh my love don't leave me hanging

It's not gonna be as it used to be
I was wild and born to be free
There was no holding me down
So Sorry for price you've paid
you gave it all and you feel betrayed
never wanted to hold you back
make or break we have to try
It's about time we compromised
We won't be saying goodbye
This time
We Won't be hanging on
We Won't be hanging on

DESTINATION

I am at the window looking in
I hear the motor running alarm bells ring
It's time to go
Will I ever be convinced
I wasn't always like this back in the day
Then slowly life crept in and had it's way
It's plain to see
I'm never gonna be like them
I'm never gonna catch the wind
Will I ever reach my destination

I don't want to be broken hearted
I don't want to be unfulfilled
What I gotta do to get things started now?
What I gotta do to win?

I had blind ambition to get me through
As my pillars crumble I feel a fool
For holding on
To a dream that was set above
what I am capable of
will I ever match my expectations

I don't want to be broken hearted
I don't want to be unfulfilled
What I gotta do to get things started now?

What I gotta do to win this life
It's beating me
It's no surprise
I'm too blind to see
the Path I seek
Is Nowhere to be seen
that won't stop my dreams
No I'm never gonna be like them

Never gonna catch the wind
Will I ever reach my
Will I ever reach my destination

I don't want to be broken hearted
I don't want to be unfulfilled
What I gotta do to get things started
What I gotta do to make me whole
What I gotta do to take control

It's not the riches I make
It's not the things that I take away
It's not the poses I fake
I never wanted too anyway
It's all the things I can't name
Can't Imagine
Can't explain
my aims
I guess I better make that change

PLEASE FORGIVE ME

Forgive Me

I never meant to cause you any pain

I never meant to let this slip away

All down the drain

But You saw me through

You saw me through the darkest of my days

You cured me of the sickness I was plagued

But Now it's changed

It's not the same

(Please Don't, Go Please Don't Go)

Everything we had has come to nothing

(Please Don't, Go Please Don't Go)

Everything we had has gone to waste

(Please Don't, Go Please Don't Go)

No one in this whole wide world

could ever take your place

Oh no

You could never be replaced

Believe me

This was never ever part of what I planned

I never thought I would cope with the demand

But here I stand

And You saw me through

You saw me through the darkest of my days

You cured me of the sickness I was plagued

But Now it's all changed

It's not the same

(Please Don't, Go Please Don't Go)

Everything we had has come to nothing

(Please Don't, Go Please Don't Go)

Everything we had has gone to waste

(Please Don't, Go Please Don't Go)

No one in this whole wide world

could ever take your place

Oh you are a maze

That I cannot replace

Only you have proved you have what it takes

(Please Don't, Go Please Don't Go)

Everything we had has come to nothing

(Please Don't, Go Please Don't Go)

Everything we had has gone to waste

(Please Don't, Go Please Don't Go)

No one in this whole wide world

could ever take your place no

You could never be replaced

BEST FRIEND

I know the troubles you've faced
I can see your tired face
You look at me with a distant troubled stare
Well if you need to talk I'll be there

Stop crying look what you've got
You say it don't even matter
I'm not lying I care a lot
So take me baby
Tell me straight say what you feel
Is this a dream or is this real
I can't go on living it like this

Well I guess I'm losing my
Best Friend
Well I guess I'm losing my
Best Friend

I know you're haunted by your past
Some things in life aren't meant to last
Be glad you got through and leave it all behind
It's time to move on you better cut those ties

Stop crying look what you've got
You say it don't even matter
I'm not lying I care a lot
So take me baby
Tell me straight say what you feel
Is this a dream or is this real
I can't go on living it like this

Well I guess I'm losing my
Best Friend
Well I guess I'm losing my

Baby we can work it out
Settle all those fears
I know we can turn it round

WHAT'S THE USE

Down on my luck
heartbreak's run amuck
that's when you found my sorry soul
I got back on my feet
took a back seat
and I let the good times roll
Cause time will only tell
if we'll hear those wedding bells
But somehow I don't think so
We can be united that get's me excited
But it's not enough to get us through the bumpy road

I don't know what happened to our love
Cause this love's not working

Baby what's the Use?
Because it's not not not getting better
we've tried but we've only proved
that it's not not not getting better

I've jumped through your hoops
I've even looped the loop
why won't you meet me halfway
Sure I can be self obsessed,
but hate the loneliness
of all the choices I make
By Now you've found me out
You've stripped me of my crown
so convinced you can turn me round
If our love is a ship then
I guess we need a captain
cause as it stands were going
Down Down Down Down Down

I don't know what happened to our love
Cause this love's not working

Baby what's the Use?
Because it's not not not getting better
we've tried but we've only proved
that it's not not not getting better

I don't know what happened to our love
Cause this love's not working

Baby what's the Use?
Because it's not not not getting better
we've tried but we've only proved
that it's not not not getting better

Baby what's the Use?
Because it's not not not getting better
we've tried but we've only proved
that it's not not not getting better

Baby what's the Use?
Because it's not not not getting better
we've tried but we've only proved
that it's not not not getting better
